

Data Management Plan

During the course of the proposed project we anticipate generating these products:

| Product | Shared (y/n) | Stage Shared (R,P,A) | Format(s) | Policies & Practices Access/Sharing/Reuse | Archiving/Access |
|---------|-----------------|----------------------------|-----------|--|------------------|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Notes:

Guide to Filling Out the Form:

Product: In this column, list the data, samples, physical collections, software, curriculum materials, and other materials to be produced.

Shared: Indicate whether or not the product will be shared.

Stage Shared: Identify the stage (raw, processed, analyzed) at which the product will be shared.

Format(s): Note the data file formats, if applicable. May use footnotes to explain below the table, in “Notes:”, rationale for choice of formats.

Policies & Practices for Access/Sharing/Reuse: Code numerically in the table, and elaborate below the table, in “Notes:”, any policies or practices that affect data access, sharing and/or re-use including provisions for appropriate protection of privacy, confidentiality, security, intellectual property, or other rights or requirements. PIs may wish to cite such policies as:

- NSF’s policy on Dissemination and Sharing of Research Results in the Award and Administration Guide, Chapter IV.D.4 :
