OSG USER SCHOOL 2020
July 6–10
Harness the power of distributed computing

• Use High Throughput Computing (HTC) and the Open Science Grid (OSG)
• Learn how to access and use thousands to millions of hours of computing
• Get help handling lots of data (gigabytes, terabytes)
• Learn by doing — lots of hands-on activities
• Taught by faculty & staff who work with distributed computing daily

Ideal for graduate students and support staff (and others!) who use large-scale computing for research:

Physics · Biology · Chemistry · Statistics · Economics
Medicine · Engineering · Language · Psych · More!
